

Murrplastik. *Our systems are your solutions.*

Murrplastik Systems is a progressive and innovative world leader in providing cable management solutions to the Industrial Machine Automation and Robotics Industries. We produce over 5,000 products across our five major product lines.

Murrplastik offers our customers a responsive, single source of manufacturing engineering and design expertise to meet all your cable management and robotic dresspack needs. Our systems are your solutions.

EFK Cable Drag Chain Systems

Optimally tailored to encompass an extremely wide range of applications

KDH Cable Entry and Holding Systems

A unique array of options to insure optimal entry of cables and conduits.

SUV Specialty Conduit and Fitting Systems

Flexible systems for providing complete cable protection in any environment.

ACS Cable Labelling Systems

Comprehensive and compatible systems for all types of cable marking and labelling.

AUR Robotic Dresspack Systems

Fully loaded robotic dresspack solutions for any robotic application.
