

kHz & MHz oscillators enabling:

- Fuzes, seekers
- Guidance, navigation
- Communication, radios
- System and flight controls

- 24-hour time holdover with $<1.5 \mu\text{s}$
- $<1 \text{ g}$ weight
- -55°C to 125°C operation
- $<1\text{E-}11/\text{g}$ vibration insensitivity
- 2016 QFN packages and smaller

100,000+ g
shock survivability

1 μA
power consumption

$<5 \text{ ms}$
start-up time
